

3-6-11 TUE.

Dear Vickie and Jimmy,

I just noticed I have gained four pounds so I walked over to Bensons late this afternoon and dad came over and picked me up and fed the dog. Benson will be back next Friday. When Diane was with me I felt I got plenty of exercise but now we are having so much rain & can't work in the yard. When I was walking to Benson it was raining but not hard and it felt good.

Yesterday we received a 200 dollar check from our renters for March and April so I guess they are going to be alright. Sandi and Dick and the three children spent the weekend up at Crystal at Gails Condo. (I don't know how to spell the whole word) Anyway the condo is right above the restaurant, high up the hill with almost two hundred steps, step one, to climb with all their food, sleeping bags, skis etc. She thought they would never make it. After skiing the first day they

left their skis outside and Reckys 200 dollar skis and 50 dollar bindings were stolen. He had just gotten them for Christmas.

We think it will be wonderful if you can keep your place and rent it. We can loan you money if you want it and dad said we will tell about that when we see you which will be soon. I hope you can drive but it certainly is a long motor trip but it would be fun. I love staying in motels and eating out, but I must lose four pounds or otherwise I might get big and fat.

It is just pouring out now so I was lucky on my walk. The news told about the rain storm there and cooler weather. Our grass is very long but we wait until it dries out. I look around my house and I love it, but I still would like to have a deluxe apt. there for awhile.

More later.

Love,  
Mona
